Practical - 3

Practical Title: Responsive UI Design using CSS Grid, Flexbox, and Bootstrap/Tailwind

Problem Definition 1: Design responsive layouts for Home, About, Registration, Dashboard, and Events pages using CSS Grid and Flexbox. Optional to use CSS framework such as Bootstrap or Tailwind. Ensure mobile-first responsiveness.

Theory

1: How does the layout adapt for mobile, tablet, and desktop screens?
Answer: By setting margin to auto.

2: Which layout technique is used and why?
Answer: I used heading then information layout because it is easy to approach and user friendly.
3. Are typography, spacing, colors, and contrast readable?

Answer: Yes I have set background image and text colors such that it has warmth and it does not give strain to the eye.

A. Implementation/ Output/Result (Keep only one option which is suitable to practical)

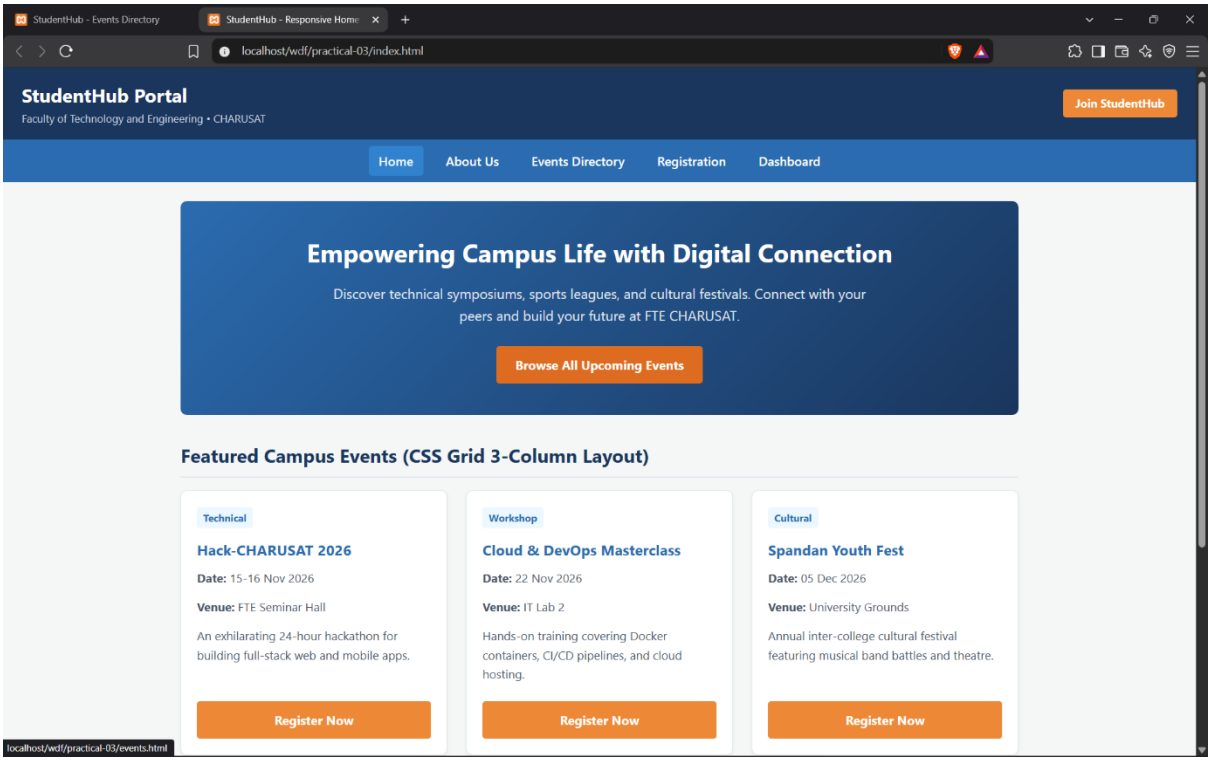

CSS Features & Properties Summary

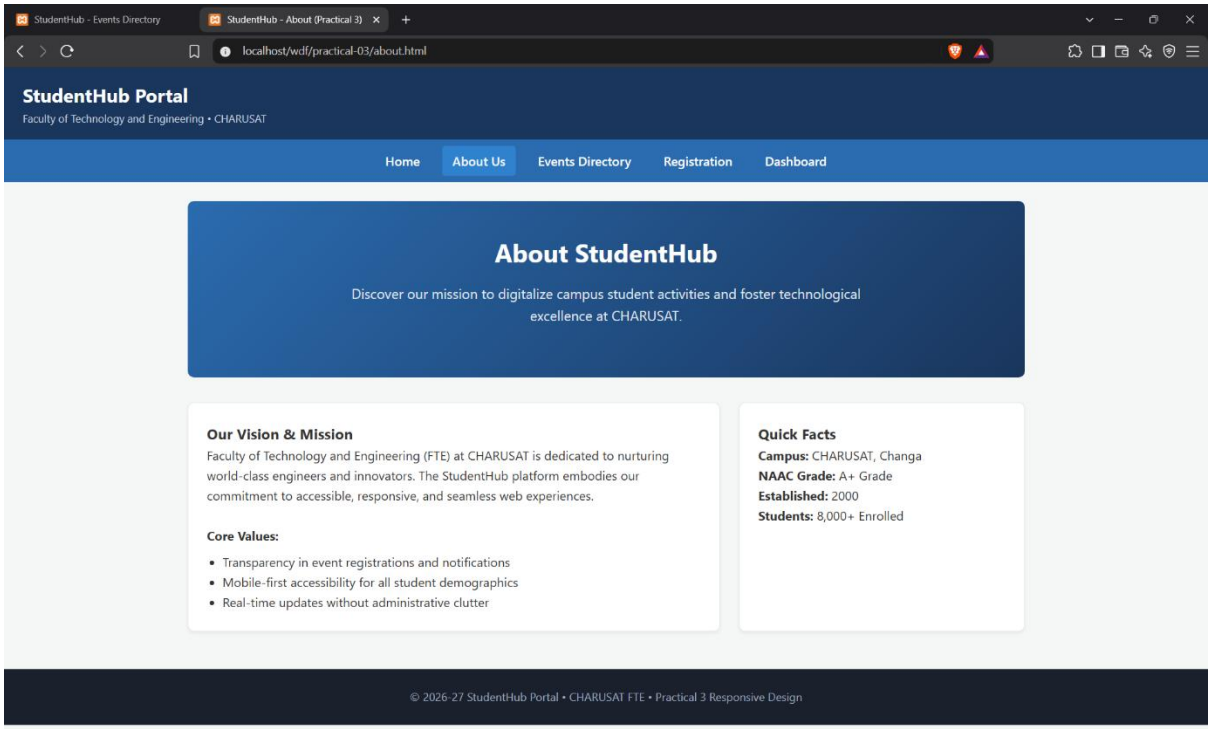

The CSS styling spans internal <style> blocks and inline style="" attributes:

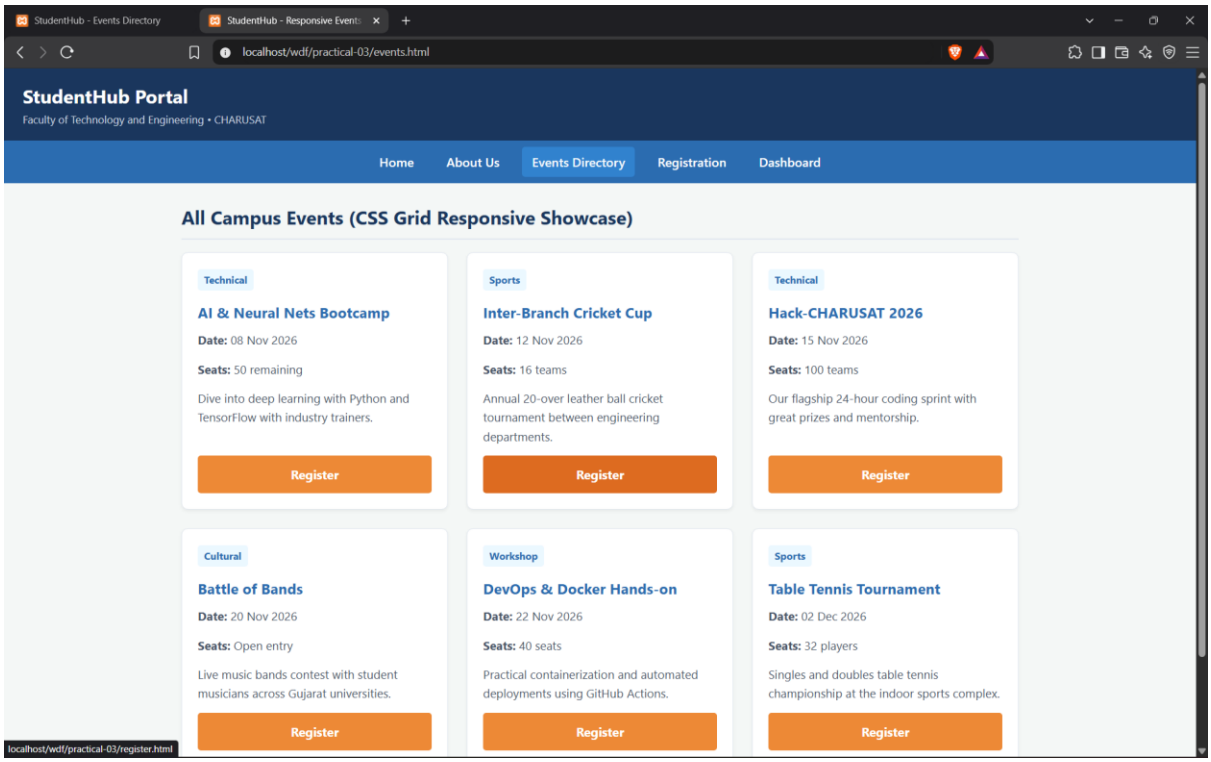

- **Global Reset:** Universal selector * resetting margin: 0, padding: 0, and box-sizing: border-box.
- **Layout & Flexbox:** Block level components using display: flex, flex-direction, justify-content, align-items, gap, centered alignment (margin: auto), fixed/fluid widths (px, %, vh), and absolute/relative positioning (position, z-index).
- **Typography:** text-align, font-size, font-weight, font-family, line-height, letter-spacing, and text-decoration.
- **Styling & Effects:** Card styling with border, border-radius, box-shadow, background colors (Hex, RGBA), pseudo-elements (::before), and background images (url(), background-size, opacity).
- **Table Styling:** border-collapse: collapse with specific cell borders and padding.

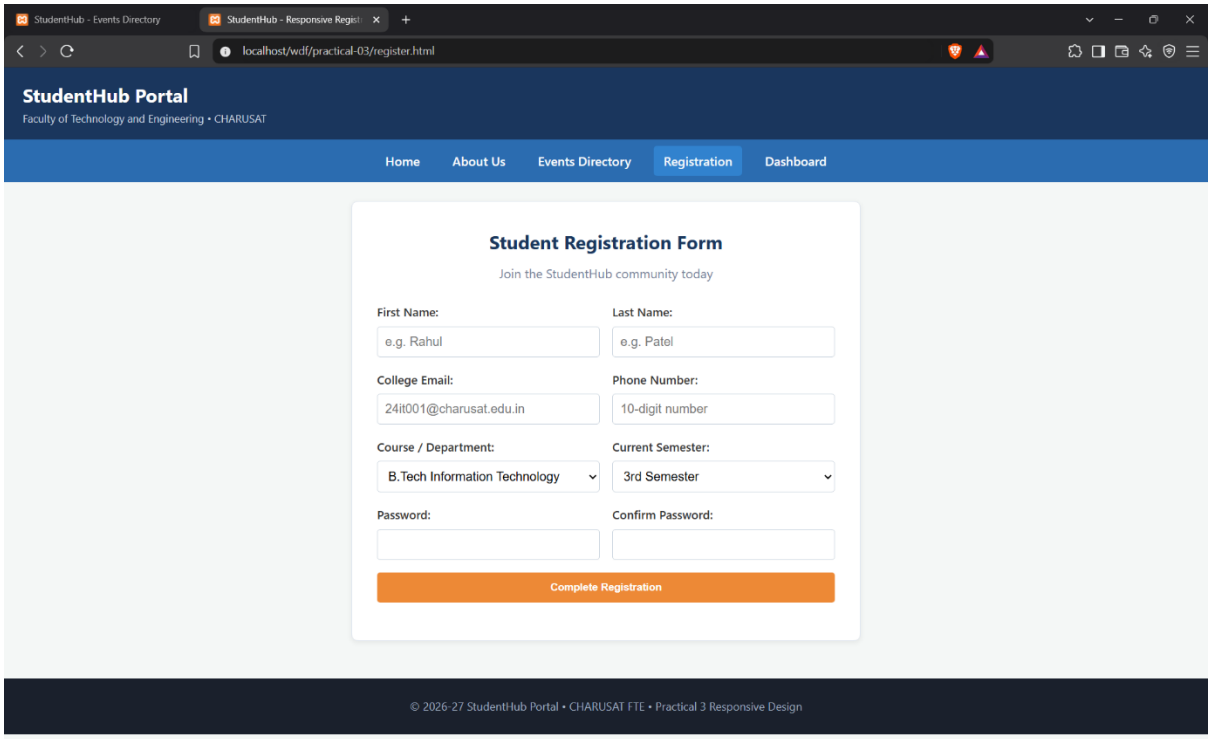

- **Interactions:** Pseudo-classes :hover and :focus, hover animations using transition and transform: scale(), and custom cursors (cursor: pointer).
- **Responsiveness:** @media (max-width: 768px) media queries used to adjust layout padding, table sizes, font sizes, and force full-width layouts (width: 100%) on mobile.

About StudentHub
Discover our mission to digitalize campus student activities and foster technological excellence at CHARUSAT.
Our Vision & Mission
Faculty of Technology and Engineering (FTE) at CHARUSAT is dedicated to nurturing world-class engineers and innovators. The StudentHub platform embodies our commitment to accessible, responsive, and seamless web experiences.
Core Values:
Transparency in event registrations and notifications
Mobile-first accessibility for all student demographics
Real-time updates without administrative clutter
Quick Facts
Campus: CHARUSAT, Changa
NAAC Grade: A+ Grade
Established: 2000
Students: 8,000+ Enrolled

B. Challenges Faced:

background image setting:

It was hard to make the background image set on the website like that how it can be seen in the screenshots but with the help of autopilot and google and appropriate tags and style options in CSS I was able to nail it.
